

SYNTHETIC TEST DOCUMENT

Managed cloud support services

Reference	TL-EN-2026-011
Procurement type	it
Dataset split	train

Important: this is a fictional tender with no personal data. It is for testing only.

1. Key parameters

1. Submission deadline

The bidder shall submit its offer no later than 21 September 2026 at 17:00 UTC. No deadline extension is planned.

2. Maximum contract value

The procurement budget is capped at USD 280,000 including all taxes, inclusive of applicable taxes.

2. Performance and payment

3. Delivery period

Delivery and commissioning must be completed within 30 calendar days after contract signature.

4. Payment terms

Payment will be made within 15 business days after monthly acceptance. No advance payment is available.

5. Warranty period

The procurement result is covered by a 12 months warranty after acceptance.

3. Security and liability

6. Bid security

Participation requires bid security equal to 1% of the maximum contract value.

7. Performance security

Before signature, the winner shall provide performance security of 5% of the contract price.

8. Delay penalty

If a deadline is missed, liquidated damages of 0.1% of the delayed monthly service value are charged for each calendar day.
