

SYNTHETIC TEST DOCUMENT

River water monitoring equipment

Reference	TL-EN-2026-020
Procurement type	goods
Dataset split	validation

Important: this is a fictional tender with no personal data. It is for testing only.

1. Key parameters

1. Submission deadline

The bidder shall submit its offer no later than 10 November 2026 at 13:00 UTC. No deadline extension is planned.

2. Maximum contract value

The procurement budget is capped at USD 635,000 including taxes, inclusive of applicable taxes.

2. Performance and payment

3. Delivery period

Delivery and commissioning must be completed within 135 calendar days after contract execution.

4. Payment terms

Payment will be made within 17 business days after installation acceptance. No advance payment is available.

5. Warranty period

The procurement result is covered by a 30 months warranty after acceptance.

3. Security and liability

6. Bid security

Participation requires bid security equal to 1.75% of the maximum contract value.

7. Performance security

Before signature, the winner shall provide performance security of 7.5% of the contract price.

8. Delay penalty

If a deadline is missed, liquidated damages of 0.07% of the uninstalled equipment value are charged for each calendar day.
